

Haywood Community College Courses

Career and College Promise Beginning in spring 2012 semester the Career and College Promise program replaced dual enrollment, huskins, and learn and earn online initiatives, as the way for high school students to earn college credit tuition free. Career and College Promise provides seamless dual enrollment educational opportunities for eligible North Carolina high school students in order to accelerate completion of college certificates, diplomas, and associate degrees that lead to college transfer or provide entry-level job skills. For complete details on Career and College Promise at Haywood Community College, including student eligibility requirements and program curriculum, please visit http://www.haywood.edu/high_school_programs.

College Transfer Pathways

College transfer pathways provide up to 34 hours of tuition-free course credits toward the Core 44, an agreed-upon 44 hours of college credits that will transfer seamlessly to any public or participating private college or university, saving successful students time and money in pursuing four-year degrees.

To be eligible for enrollment, a high school student must meet the following criteria:

- Be a high school junior or senior;
- Have a weighted GPA of 3.0 ("B") on high school courses; and
- Demonstrate college readiness on an assessment or placement test

To maintain eligibility for continued enrollment, a student must:

- Continue to make progress toward high school graduation, and
- Maintain a 2.0 in college coursework after completing two courses.

Students must enroll in one college transfer pathway and may only enroll in courses that are part of that pathway. Students may switch pathways with the principal's approval. See your counselor for complete information on eligibility requirements and the curriculum of each pathway or visit http://www.haywood.edu/college_transfer_pathways.

College Transfer Pathway Options:

Humanities and Social Science Pathway (1012A)
Life and Health Sciences Pathway (1042A)

Business and Economics Pathway (1012B)
Engineering and Mathematics Pathway (1042B)

These courses are taught by Haywood Community College faculty, are offered online at PHS or onsite at Haywood Community College, and will follow the Haywood Community College academic calendar. For course descriptions visit http://www.haywood.edu/course_catalog

HCC does offer additional courses taught online and during evening hours that you may be interested in.

These courses earn college credit but no high school credit, and are tuition-free.

Contact Matt Heimburg, HCC, at 627-4579 for more information or to enroll in these courses.

Career Technical Education Pathways

The Career and college Promise Career Technical Education Pathway leads to a certificate or diploma aligned with a high school Career Cluster.

To be eligible for enrollment, a high school student must meet the following criteria:

- Be a high school junior or senior;
- Have a weighted GPA of 3.0 ("B") or higher on high school courses OR have the recommendation of the high school principal or his/her designee; and
- Meet the prerequisites for the career pathway.

To maintain eligibility for continued enrollment, a student must:

- Continue to make progress toward high school graduation, and
- Maintain a 2.0 in college coursework after completing two courses.

Students must enroll in one career technical education pathway and may only enroll in courses that are part of that pathway.

Students may switch pathways with the principal's approval. For more information visit

http://www.haywood.edu/career_technical_education_pathways

Career Technical Education Pathway Options:

Automotive Systems Technology (Auto I)/ Automotive Systems Technology (Auto II)

(Auto III) – yearlong
